Zeynep  
Sanduvaç

## **The HSP challenge**

Today's scenario: You are responding to the devastating 7.7 and 7.6 magnitude earthquakes that struck Southeast Türkiye and bordering Syria on 6 and 7 February 2023.

These earthquakes represent two of the largest to have hit Türkiye in the last century, and one of the deadliest experienced by the country. The aftershocks impacted at least 10 provinces.

How can minimum humanitarian standards help you in the different situations you encounter?

**DPPI SEE**

Disaster preparedness and prevention Initiative  
for South eastern Europe

# DPPI FLEX 2023

Full Scale Simulation Exercise  
Brcko, Bosnia and Herzegovina  
23-27 October, 2023

# DPPI FLEX 2023 Exercise objectives

## Aim

- To test capabilities developed within DPPI SEE training program through a field simulation exercise.

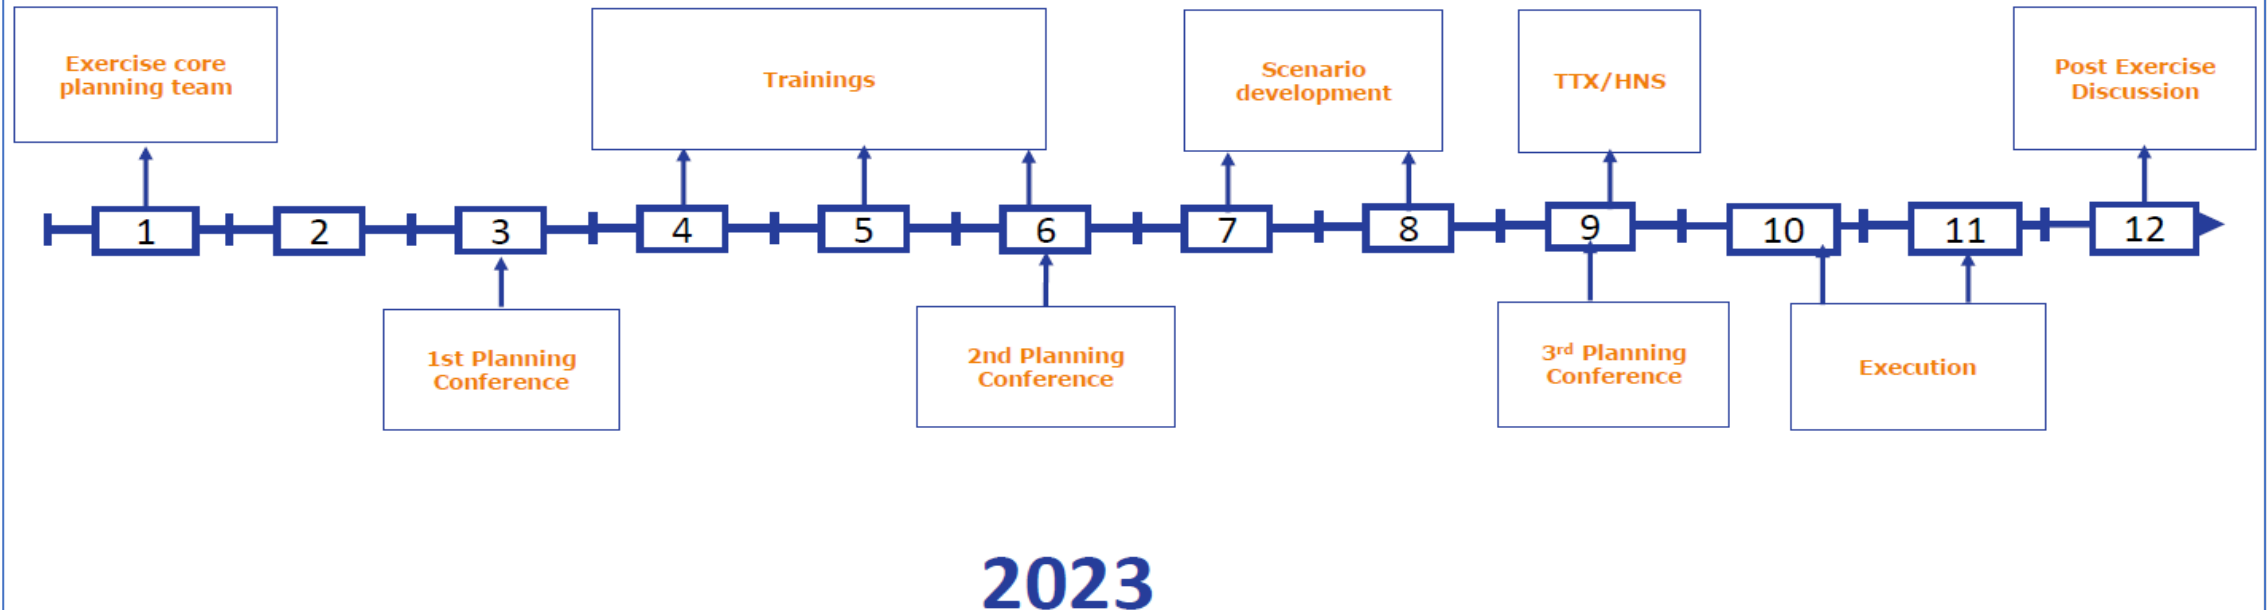

## Objectives

- Test the existing drone flying capacities of the member states.
- Test the capabilities for planning and executing logistics operations.
- Test the use of Sphere Handbook in camp management setting.

# FIELD EXERCISE STRUCTURE

**DAY 0 (CPX)**  
**23 October**

**DAY 1**  
**24 October**

**DAY 2**  
**25 October**

**DAY 3**  
**26 October**

**Day 4**  
**27 October**

Request for international assistance /offers/ acceptance

Preparation for deployment

Arrival (EUCPT and teams)

RDC activities

Assessment in BoO

Meeting in OSOCC

Meeting in OSOCC

Assessment Tuzla airport

Request for in-kind assistance

Exercise activities (night activities)

Meeting in OSOCC

Exercise activities

Closing ceremony

Evaluation Workshop

Departure

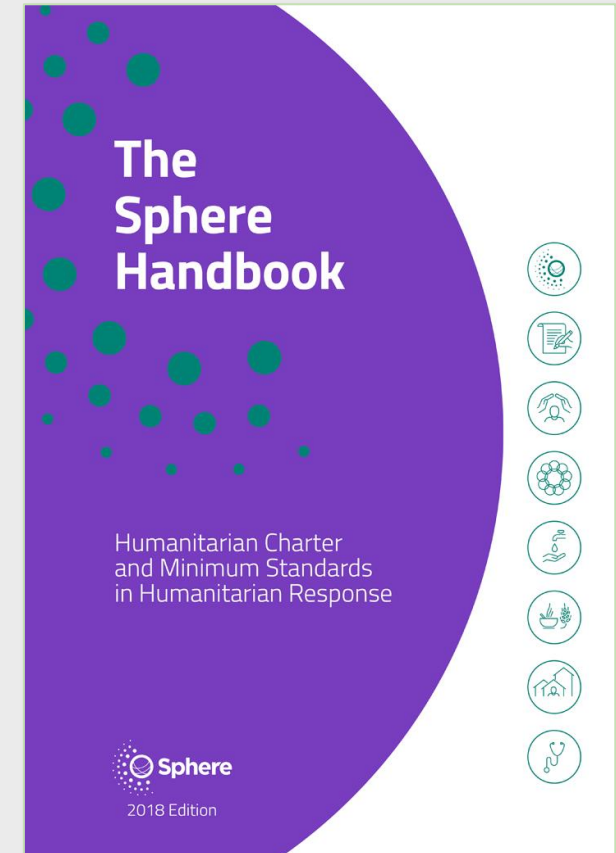

# Step 1: Familiarise participants with Sphere Handbook before event

## 1. In-person trainings:

- Sphere Handbook
- Sphere in Urban Settings

## 2. Online trainings such as:

- How to use the Sphere Handbook
- How to be a Sphere Champion
- Sphere in Practice
- Introduction to the Minimum Standards for Camp Management

# Step 2: Tasking done by experienced Sphere Incident Commander

## DAY 1 – Start with BRIEFING (DEMOGRAPHICS & AIM)

1. To assess potential locations and choose the most appropriate one for Camp in accordance with the Sphere standards
2. To map all available capacities relevant and needed for the response
3. To project type of assistance and calculate amount of assistance needed in order to respond in accordance with the Sphere standards
4. To map the Camp in accordance with the Sphere standards

End with DEBRIEFING

# Step 3: Mapping accompanied by Sphere trainers

## DAY 2 – Start with BRIEFING

1. To map service areas in the camp e.g. First Aid, Prayer, Children's Play in accordance with Sphere standards
2. To define type and quantities of support needed from the Logistics Team
3. To simulate flow of affected people in the Camp in order to test the logic of the Camp set up

Option to increase the challenge: There are additional arrivals of people and camp is overcrowded now. Team is tasked to map and organize accommodation and services in urban settings.

End with DEBRIEFING

# Tip 5: Observers informed about Sphere-focused exercise goals

**Thank you!**
